POLICY ON E-GOVERNANCE

The E-Governance is the use of technology to perform institutional activities and achieve the objectives of governance. It ensures speedy administration of services and information. The E-Governance helps in improving transparency and administrative efficiency.

1. Finance and Accounts:

The Institution has tally software for the finance and accounts e-governance. The tally software has been used for recording, managing and processing financial transactions and datas.

2. Students Feedback system:

The Students Feedback system is developed to assess and improve teaching effectiveness. It is an important part for teaching learning process. The institution has self-developed feedback system in which the feedback can be collected and analyzed from the students efficiently. This helps faculty to improve their class room practice.

3. Examination:

The Institution uses Anna University Web portal for University Examination. The Exam cell is equipped with necessary equipments for conducting Internal and External Examination.
